Suing an Insurance Company.

LAFAYETTE, Ind., Aug. 11.—A case involving some fine points of law has been docketed here in the superior court. Elizabeth Dowdican, a widow, asks the court to compel the Equitable Life Insurance company, of New York to pay her $1,000 on a policy alleged to have been held be her husband. Dowdican was solicited by the company's agent to insure. He pleaded inability to meet the first payment. The agent, it is claimed, entered into an agreement to carry him for thirty days—that is to give him that length of time in which to pay after it was due. This proposition Dowdican accepted, made his application, was examined, and the papers forwarded to the general office. There they were accepted and the policy mailed to the agent. It was received by the agent, but never delivered. In the meantime, before the expiration of the thirty days of grace granted by the agent, Dowdican was taken ill and died. Within the period named the widow sought the agent, tendered the amount of the premium, and demanded the policy. The money was refused and the policy withheld, the agent claiming that as no money had been paid and the policy was never delivered the widow had no valid claim on the company. The plaintiff asks that the company be compelled to produce the policy in court and that she be given judgment for $1,000 upon payment of the premium or that the premium be deducted from the $1,000 and judgment be given her for the remainder.

HORRIBLE!

A Broken Bridge Plunges an Excursion Train Into the Vermillion River, Carrying One Hundred Persons to Death.

CHICAGO, Aug. 11.—A dispatch from Chatsworth, Ill., says that a train left Bloomington last night for Niagara Falls, on the Illinois Central, the intention being to go by that road as far as Chatsworth, and from thence by way of the Toledo, Peoria and Western.

A change was made at Chatsworth, in Livingston county, and soon afterward, as the train neared Piper City, a small town in Ford county, the bridge crossing the Vermillion river, gave way, plunging the engine and several cars down the steep embankment into the stream.

The cars caught fire from the lamps and a fearful panic ensued.

On investigation it was found that nearly one hundred excursionists were killed or injured.

From a conductor it was learned there was a collision on the bridge, which caused the bridge to give way.

The conductor says the killed numbered between forty and fifty, and that the injured are more than twice that number.

The accident occurred some time between midnight and four this morning.

A relief train with physicians, was sent from Peoria this morning.

THE ILL-FATED TRAIN.

Information received at the Illinois Central office in this city is that the train consisted of two engines and sixteen coaches. The culvert had been burned away about two miles east of Chatsworth, presumably by the prairie fire, and about 1 o'clock, this morning the engines and coaches went over. The agent at Chatsworth reports that over 100 are killed and about a like number injured. He can give no further information.

Two Peoria gentlemen who had intended taking the ill-fated train, reached Chicago this morning, having, at the last moment selected another route east. They say the train was made up at Peoria. Twelve cars started from Peoria, including four sleepers. Attached to the train was the private car of the superintendent of the road, which was to be occupied by himself and son. The departure from Peoria was at 7 p. m. and the intention was to take another coach on, filled with excursionists, at Bloomington.

FROM THE SCENE OF HAVOC.

CHATSWORTH, Ill., Aug. 11.—The Niagara Falls excursion train, seventeen coaches and sleepers, crowded with passengers from Peoria, Ill., and points along the line was wrecked two and a half miles east of Chatsworth by running into a burning culvert.

The two engines were completely wrecked, together with ten coaches and a baggage car. Engineer McClintoch was instantly killed. Two firemen and another engineer escaped serious injury. Ten cars were piled on top of two engines, being telescoped and piled across the end on top of each other. It is miraculous how many escaped, as the coaches and engines do not occupy over two car lengths in space piled on top of each other. In one coach not a person escaped. Seventy of the dead have been taken out up to this time and 100 wounded are now in Chatsworth, in the town hall, the school house, the depot, etc.

THE KILLED AND INJURED IDENTIFIED.

At Piper City there are a large number of wounded—over fifty.

The dead are estimated at 100.

The cars caught fire, but were put out by trainmen and passengers. A heavy rain set in two hours later, before the wounded could be taken away.

The people are doing all they can for the wounded.

Among the dead is Mrs. Zimmerman and a babe belonging to Joe Neal, of Peoria.

Among the injured are J. E. Deckman.

Miss Pearl Adams.
Mrs. Lotty Welch.
Robt. Zimmerman.
Mrs. Mry McEray.
Mrs. Joseph Neal.
E. A. Parker.
Wallace Robinson.
Mrs. J. W. Grant, all of Peoria.

CHATSWORTH, Aug. 11.—Among the killed the following have been identified:

Mrs. P. Cress, Washington, Ill.
Mrs. May Lay, Forest.
Arthur McCarty, Forest.
Jas. Blair, Forest.
Ed. McClintoch, engineer.
Joe Hatton, baggagemaster, Peoria.
Jesse Meeke Gireka, Forest.
Mrs. Dr. Brucket, Forest.

LAST EDITION.

110 BODIES.

PEORIA, Aug 11.—A private dispatch from Superintendent Armstrong says that one hundred and ten bodies so far have been taken out of the wreck at Chatsworth.

FRIGHTFUL SCENES.

CHICAGO, Aug. 11.—Ten coaches had either gone through the bridge or were piled in a promiscuous shape crosswise and lengthwise of the track. The shrieks and groans of wounded and dying could be heard.

The bridge through which the cars passed was a small one. It had been on fire, which was the cause of its weakening, causing the frightful holocaust. So far over seventy bodies have been recovered. They were conveyed to the town hall, school house and on the depot platform.

TWO HUNDRED KILLED.

No one has been taken from under the cars, and not even a sound can be heard from them. It is feared all are dead, and the number killed is estimated at 200. The wounded so far number 160.

THE LOCAL GOSSIP.

The ill-fated train, so quickly wrecked at Chatsworth, was to pass through Fort Wayne over the Wabash road at 6 o'clock this evening. It was to leave the Big Four road at Lafayette and proceed thence to the Falls, but its career was cut short as were the dreams of the precious passengers. Arrangements were made to add to the train at all points on the Wabash road and from Fort Wayne a big party was expected to accompany the Illinois excursionists.

Dr. Geo. Stemen, who officiates as local Wabash surgeon in the absence of his father, received a telegram this morning saying that two hundred were killed and four hundred injured in the wreck near Peoria, and left this afternoon for the scene of the slaughter to administer to the wants of the suffers.

Mr. Joe Brackenridge, jr., who is connected with the Toledo, Peoria and Western road, in a clerical position, is in the city, and was busy answering queries.

The accident was the sole topic of conversation on the streets and from surrounding towns come orders for extra copies of THE SENTINEL, fifty being sent to New Haven alone.

ORANGE BLOSSOMS.

Country Lovers Parade the Streets in Bridal Robes.

This morning John Holzworth and Katie Kaft came to the city from Springfield township. Mr. Holzworth was fixed up in a slick suit of black cloth, while his girl bloomed and blushed in a neat brown silk dress. From her head clung a wreath of orange blossoms and it was very evident that cupid got in his work to a pleasing degree. They stepped out of their wagon on East Main street and ran the gauntlet of an assembled crowd of curious men, the bald-headed rascals predominating.

Small boys joined in the procession and the march to the clerk's office was in the nature of a triumph to the happy pair, who nestled against each other like people do before marriage.

Harry Metzgar issued the license and Esquire Harding loomed up to make 'em one.

He led them behind the alcove in the clerk's office and pronounced the words that linked the people together in golden ties. The groom was a little aged and didn't mind it, but through the sun bronzed cheeks of his tender bride burst the blushes of modesty in genuine sprays. Upon one of these rosette spots Justice Harding planted the official seal and Dan Souder had to be removed from the room.

There was a distinguished assemblage to witness the ceremony. Among them the society reporter noted:

C. F. Taylor, *Daily News*; Jos. Brackenridge, O. B. Wiley, county surveyor; M. N. Webber, councilman; Mr. Kuhne, abstractor; John Forbing, real estate broker; Lem R. Hartman, bank cashier; T. J. Rodabaugh, attorney; T. S. Heller, county recorder; W. J. Kerr, attorney; and others who escaped.

THE MARKETS.

NEW YORK, Aug. 11.—The stock market opened heavy to weak at first prices, showing dolines from ¼ to ½c. The trading was dull from the opening. The market soon gave way, and on a sale of wheat larger business quotations were carried below the opening figures.

Money, easy at 4 per cent.
U. S. 4s coupon, 1.27¾.

NEW YORK, Aug. 11.—Wheat, ¾@¾c lower and heavy, with moderately active business. No. 2 red, Aug. 80. Corn, 1½@1¾ lower and heavy at 48@50.

CHICAGO, Aug. 11.—Wheat, firmer than opening at 98⅞c. Corn firm at 41⅛. Oats steady at 25c.

Ives & Co., Fail.

NEW YORK, August 11.—The firm of Henry S. Ives & Co., has just notified the Stock Exchange of its suspension. There was intense excitement on board as soon as the announcement was received.

Messrs. Cromwell, Sullivan & Cromwell have made an assignment; liabilities, $2,000,000.

IN DISTRESS.

The Terrible Condition of the Icelander Colony Located at the Town of Sayerville, N. J.

NEW YORK, Aug. 11.—Intelligence reached New Brunswick, N. J., yesterday of the terrible situation of a colony of Icelanders, who arrived at Sayreville ten days ago. The party number forty, including wives and children, and while the men went to work in the brick yards at that place, the women lived in squalid quarters near the yards. All the members of the colony wore heavy clothing, and paid little or no attention to sanitary requirements.

Four days ago one of the men was seized with sickness resembling cholera. No physcian was called and the man died in a few hours after taking to his bed. His friends in the colony were unable to communicate with any one about his condition, owing to their inability to speak English, and soon after death ensued the body was placed in a box and tossed on a beer wagon, taken to South Amboy and there interred. On Saturday a little child not over five years old died with the same malady.

The parents were distracted, but no one came to offer sympathy or relief. In their extremity the parents placed the body in a box, and pushing the front porch of the shanty aside buried it there. Yesterday it was reported that there were five more cases among the Icelanders, and the residents of that section are greatly alarmed as to their present safety.

Several doctors were requested last night to visit the colony and relieve the sufferers. The torrid heat of the past few weeks has weakened them so that they appear like ghosts of their former selves. Under no circumstance could they be prevailed on to forsake their heavy clothing, which they have worn from their cold climate to this country, and until they are compelled to observe the rules of health and climatic changes of clothing, their distress will not receive any improvement.

Removed for Cruelty.

PERU, Ind., Aug. 11.—Samuel Myers, who has held the position of superintendent of the county poor farm several years, has been notified that thirty days from date his services in the position will be no longer required. Myers' error lay in the too promiscuous use of the whip upon people in his charge, as was the case of Constable Taggart's half-witted sister, who was whipped until the flesh was raw and large black and blue welts showed themselves for this, which occurred some weeks ago.

A Priest Dies of Starvation.

NEW YORK, August 10.—Rev. J. M. Machale, a Catholic priest, who came from Ireland to the Brooklyn diocese last December, died on Monday from starvation. He suffered much from homesickness, and during the late hot spell he became demented and refused to eat. He was taken to the hospital last Saturday, having eaten nothing since the previous Sunday. He was then beyond the aid of physicians, and expired Monday morning. He was 46 years old, and a very eloquent speaker.

Found Floating in the Bay.

SANDUSKY, Ohio, Aug. 11.—The dead body of a man was found floating in the bay to-day, and from papers found in the pocket it is thought to be that of Lewis E. Stowe, clerk in the auditor's office of the T. A. A. and N. M. railway, Toledo. He hired a boat Sunday evening and failed to return. The boat was found beating against the cribbing. The authorities at Toledo have been notified, and an inquest will be held to determine whether the drowning was the result of accident or suicide.

A Stranger Killed.

Last evening at a point one mile west of Maples, in this county, where the double track of the Pittsburg, Fort Wayne road and the Grand Rapids road begins, a man was seen walking east on the Fort Wayne track. He stepped off to avoid a wast bound train but got on to the Grand Rapids and Indiana railroad tack just ahead of the east bound accommodation train which struck him from behind, killing him instantly. The mangled remains were brought to this city this morning and lies at Peltier's morgue for identity.

The dead man is supposed to have been a tramp and the poor fellow goes to a tramps grave.

DELL M. ASTRAY

Is Hurled from an Excursion Train This Morning and Receives Severe Injuries.

Dell M. Astry, who is employed as a machine hand in the manufactory of Rhinesmith & Simonson, was one of the excursionists who left this morning on the Grand Rapids with the Kerr Murray party for Rome City, but his day of anticipated pleasure was over almost before it had commenced, for he met with an accident soon after the train had pulled out of the depot He was standing upon the steps of the platform of one of the cars, leaning out, and when the train reached the St. Mary's bridge, he was struck in the head by the iron structure and thrown from the train. He rolled down the high embankment into the river and when he was rescued by some of his companions it was found that he had received severe injuries about the head.

He was taken up and conveyed to the St. Joseph hospital in a hack, where Dr. Myers attended to his injuries. His head was severely cut in several places, the fall from the train and down the embankment bruised his body all over and injured him somewhat internally, but it is thought that time and medical treatment will bring him out all right in the end.

Since writing the above we learn that the lower jaw and the left thigh of the young man was broken and that his injuries will probably confine him to the hospital for two months.

RIPPE'S LOSS.

The Broadway Liverymen Hires to a Horse Thief.

Last evening Rippe & Son, the Broadway livery stable men, let a horse and buggy to a stranger. He did not return and the liverymen were alarmed.

Early this morning the horse turned up with the torn harness partially hanging to him.

The officers were notified and at once went in search of a clue to the thief and missing buggy.

The rascal is believed to be the same fellow who stole the horse and buggy at Huntington and drove to this city. Yesterday the Huntington outfit was recovered, and learning of this the thief sought Rippe's rig as a medium of flight to some neighboring railway station.

LATER—The officers have since learned that Rippe's horse was driven out of the city by two men, who had another horse attached to their buggy and this animal, it is supposed, relieved Mr. Rippe's horse some time last night.

AN OLD CASE.

Francis Scott Robinson Wanted in Whitley County.

Marshal Frank Supple, of Columbia City, was here last evening to arrest Francis Scott Robinson, alias Householder, who is wanted in Whitley county to assume parental responsibility. Some three years ago Robinson, it is alleged, seduced a pretty girl of our neighboring village, and in due time a sweet faced babe made its advent.

Robinson is now asked to right the wrong and he ought to do it.

Robinson's hiding place, in Bloomingdale was surrounded last night by Marshal Sutton and Sheriff Viberg, but the fugitive was not found.

A Thrilling Story.

TOLEDO, Aug. 11—A local paper prints a letter purporting to come from Tampico, Mexico, which contains strong internal evidences of Joe Mulhatton's authorship. It describes a duel between Senor Victoria and Senor Pediozo, the conditions of which were that they should lock themselves in a dark room with a hundred tarantulas, neither to leave until all the tarantulas had been killed. There were no seconds, and when the room was broken open both the men "were found on the floor dead, surrounded by the dead and living horrible spiders." The affair grew out of a quarrel at a ball, when the two seniors were heated with wine."

Paymaster Bash.

WASHINGTON, Aug. 11.—Paymaster Daniel N. Bash, of the United States army, who was robbed of $7,300 in Wyoming last March by a cowboy, has been suspended from duty. The investigation of the affair made by a court of inquiry is said to have revealed carelessness and negligence on the part of Major Bash.

A Card from Thomas Ahern.

To the editor of the SENTINEL:

The *Journal* of this morning does me an injustice when it states that I thew up the contract for paving Calhoun street, because the council would not allow me to put in blocks the size of a tub. This is not true. The council changed the specifications after the contract had been awarded to me and then instructed the city clerk to notify me and ascertain if I would abide by the changes. I notified the council that I would not. I am ready now to perform the contract that I had on, but I cannot do the work for the same price with the changes.

Boltz & Derheimer had a block of Columbia street to pave and they threw up their contract for the same reason I did, yet the *Journal* is not impartial enough to state the fact or facts as they really exist.

THOMAS W. AHERN.

The Democrat Possibilities.

INDIANAPOLIS, Aug. 11.—A democrat who knows says that both Congressman Matson and W. R. Myers have already begun an active campiagn for the democratic nomination for governor next year. For the state offices he thinks the 1886 ticket will brobably be re-nominated.

The light rain this morning did little or no good to vegetation. The corn will not be half a crop, and everywhere farmers are feeding it to their stock. Potatoes are beyond redemption, and heavy rains now would rot them. The meadows are bare, and the earth opens into huge crevices, so great is the drought. This dry season is without a parallel.

THE PRESIDENT!

He Selects His Route, But Fort Wayne is not Included on the List—He Will Leave in September.

WASHINGTON, Aug. 11.—It is about definitely settled that the president will leave Washington the last week in September and go directly to St. Louis, probably by way of Indianapolis. He will spend two days at St. Louis and go from there to Chicago, Milwaukee Madison, St. Paul, Minneapolis, Omaha Kansas City, Memphis, Nashville and Atlanta reaching the latter place in time to meet his engagements for October, 1888. He will go by the ordinary lines of travel, between the places named, and as his fixed appointments will preclude any divergence from the route to visit other cities all, invitations outside of it have to be declined.

The Weather.

WASHINGTON, August 11.—Indiana, local rains, followed by fair weather in the eastern portion, fair weather in the western, slight changes in temperature.

ADRIAN, Mich., Aug. 11.—No rains have fallen since the early part of June, and the drought is becoming disastrous. Not only have crops been affected seriously, but farmers are now apprehensive of fires. Last evening a man driving by Charles Culbertson's, near Tecumseh, threw a lighted cigar by the roadside. The grass ignited, and all of Culbertson's farm buildings and stacks, with a quantity of fence, were burned. Lakes in the western part of the country, which never fluctuate but a few inches, are now lowered two feet by continual evaporation.

CHICAGO, Ills., Aug, 11,—A light rain fell here for several hours last night, and it appeared to be general throughout the northern part of the state. The indications are it will be repeated to-day.

The Findlay Gas Boom.

MARION, Ind., Aug. 11.—Canton Marion, of this place, is arranging to bring suit against the board of trade and the citizens' committee of Findlay, O., for $750. In June Findlay gave a grand natural gas jubilee for the purpose of booming and advertising the town. There were processions, illuminations, speeches and prize drills. Seven hundred and fifty dollars were offered for the best drilled canton and $250 for the second best. The Marion canton captured the first prize—at least it was awarded them. The cash was not forthcoming on the spot, but as it was guaranteed by the board of trade the canton came home satisfied with the promise that it would be sent by the first of the next week. It did not come and demands for the money were met with other promises. Of late all communications of the canton have been treated with silence and the conviction forces itself that Findlay had a big time and got an immense amount of advertising at other people's expense. As soon as the canton can find out who, if anybody, is responsible, they will enter suit for the amount.

Mr. and Mrs. Julius Pottlitzer, of 106 East Berry street, are entertaining their cousin, Miss Annie Jones, of St. Louis, Mo.

Mr. J. R. Bittinger and Dr. Poyneer got into a dispute in front of Esquire Ryan's office this afternoon. The doctor contracted Mr. Bittinger very flatly and the last named gentleman planted his fist in the doctor's face. Friends then interfered.

FOREIGN NEWS.

VIENNA, Aug. 11.—Prince Ferdinand, of Saxe-Coburg-Gotha, who is on his way to Sofia to assume the Bulgarian throne, sent a note to the powers yesterday, stating that his reason for starting for Bulgaria without their consent was that he was convinced that their opposition to his acceptance of the Bulgarian throne was not due to any objection to him personally, but was directed solely to the manner of his election.

Manufacture of Hair-Pins.

For years the English and French controlled the manufacture of hair-pins, and it is only within the last twenty years that the goods have been produced in this country to any extent. The machinery used is of a delicate and intricate character, as the prices at which pins are sold necessitates the most rapid and cheapest process, which can only be procured by automatic machines. The wire is made expressly for the purpose, and put up in large coils, which are placed in a clamp, which carries it to the machine while straightening it; from there it runs in another machine, which cuts, bends, and, by a delicate and instantaneous process, sharpens the points. Running at full speed these machines will turn out 120 hair-pins every minute. To economize it is necessary to keep them working night and day. The difficult part is the enameling, which is done by dipping in a preparation and baking in an oven. Here is where the most constant and careful attention is required, as the pin must be perfectly smooth and the enamel have a perfect polish. The slightest particles of dust cause imperfections and roughness, which is objectionable.—*Brooklyn Citizen.*

A Boon

To mankind, said a member of the State Medical Society of Ga., at one of its meetings, "and the prescription ought to be given to the medical fraternity for the benefit of the Profession, for no such combination exists in the Pharmacopea as that of Simmons Liver Regulator." The late THOS. H. POWERS, of Philadelphia, America's greatest chemist, asserted "it was like the discovery of Dover, in his celebrated Dover's Powder, it could not be improved and it was wonderfully strange that the combination had never been made in an officinal form."

L. M. HINTON, M. D., Washington, Ark., says: "No other remedy within my knowledge can fill its place. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action and at the same time aid (instead of weakening) the digestive powers."

Symptoms such as bitter or bad taste in the mouth; pain in the back, often mistaken for Rheumatism; sour stomach; loss of appetite; bowels alternately costive and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick yellow appearance of the skin and eyes; a dry cough often mistaken for Consumption, indicate Liver disease, and if not regulated in time great suffering, wretchedness and death will often ensue.

Price $1. Sold by all Druggists. Prepared by J. H. ZEILIN & Co., Philadelphia, Pa

THURSDAY, AUGUST 11, 1887.

IN THE BUSY WORLD.

Personal Points and Pithy Paragraphs Picked up Around the Shops and Railroads of the City.

Ernest Miller, a boiler maker in the Pittsburg, is on the sick list.

Arthur Mills, the finisher at Olds works, is still confined to his house with sickness.

The Pittsburg shop will place a new large stationary boiler in their car department.

A seedy looking tramp was begging eatables in the houses near the railroad this morning.

This was a nice day for the men engaged in work at the manufacturing establishments of the city.

Gus Fromuth, a machinist in the Base works accompanied the excursion to Rome City this morning.

The ticket agents on the railroads report the sale of tickets to summer resorts as larger than former years.

Some of the boys who received their pay yesterday are contemplating a vacation and a visit abroad for a few days.

H. C. Eversole has been appointed official examiner of the watches carried by the employes on the Wabash Western.

James Fry is filling the position of Enoch Cox as store keeper in the Pittsburg during the latters absence on his vacation.

William Smith, the genial foreman at the Olds works, is laying his plans for a few days vacation at Detroit and among the lakes.

A fire among a pile of wood lying alongside the Wabash track near Roanoke yesterday delayed the regular passenger trains for several hours.

Russia will celebrate, on October 30th, the fiftieth anniversary of the opening of her first railroad. That country now has 17,000 miles of railroad

The city of Grand Rapids has been circled with a belt railroad, which connects all the railroads entering there and a number of the largest manufacturing concerns as well.

P. J. Hess, the machinist in the Pittsburg shop, had a well dug on his premises recently, and the clay taken therefrom has already developed curative properties. A. Hamilton says it is indispenseible in cases of rheumatism and he has suggested to Mr. Hess the propriety of selling some at 25 cents per pound. He will visit the point of interest to-day with a view of securing an interest therein.

The excursion of the employes of the Pittsburg shops to Warsaw on the 20th of the month is now a fixed fact, and notices to that effect were received at the offices of each of the foremen this morning. All of the employes of the shops will be furnished with free tickets by the company, for themselves and their families, but the outsiders who accompany them will be charged sixty cents for the round trip. The Pittsburg boys will undoubtedly carry a big excursion to Warsaw, as the employes alone number over 1,000 men, and with their families will approach near to 4,000 people. Warsaw can look out for a big crowd on the 20th and prepare accordingly.

Mr. James Doyle, of the Olds works, one of the popular and well known young men in the city and a general favorite with his fellow workmen, sends us the following note which explains itself: Mr. Editor.—Dear Sir.—I see in your issue of Tuesday evening that my name is mentioned in connection with a boxing match that it is said some parties are arranging or propose to have. So far as my taking a part in the match is concerned I wish to state that there is no truth in it as I have shown no desire to box anybody since the accident which happened to me about a year ago, and when I do I will talk for myself. Yours Truly.—James Doyle.—We gladly publish the card of Mr. Doyle, and will say in this connection that the boxing glove contests in which the boys at the shops sometimes indulge are but innocent playful affairs and but one of the ways in which they are wont to pass the noon hours. They are carried on in good humor and end in good humor.

Summer Resort for Episcopalian Ministers.

Bishop Knickerbacker, of the Episcopal diocese of Indiana, has recently purchased a tract of thirty acres of hard wood timber land on a beautiful chain of lakes in the vicinity of Lima, with a view of erecting in time a summer resort for the clergy and churchmen who may desire to avail themselves of it. An association in due time will be formed, the tract laid out in lots, and privileges disposed of to churchmen for cottages. The plan includes a chapel, clergy house and cottages, boat house and boats, bath house, boarding house, park, etc. The tract is situate on Twin lakes, high and dry. It connects by an outlet with Pigeon river and Pigeon lake. The fishing is fine, and the situation combines many advantages of a healthful, quiet summer resort.

Prepared by a combination, proportion, and process peculiar to itself Hood's Sarsaparilla accomplishes cures hitherto unknown.

Misses Mary and Lydia Schnelker, Julia Shea and Maggie Moriarity, who have been visiting friends at Toledo and the islands for the past few days, returned home Monday.

Who was the dude that went to see his best girl a few evenings since and had not sand enough to face the music, but walked up and down the sidewalk whistling "Darling, meet Me at the Gate?"

John Blaising is an expert angler; he, with a few friends expect soon to visit the lakes above Angola on a fishing expedition. John was seen Sunday evening with a hoe raking in the necessary bait to obtain a fine string of bass.

Monday morning August Hanefelt, a carpenter, while working on H. F. Schnelkers' new residence on Main street, fell from the roof of a building to the ground, a distance of twenty-six feet. He broke his shoulder blade, received injuries about the head and body, and died last night.

About the Weather.

From the record kept at the Indianapolis signal service office, it appears that July, 1887, was the warmest July in seventeen years, the mean temperature, 80.6, exceeding the same month in 1879, which comes next with a heat record of 79.6, and 1881 with 79.4. The rain-fall, as shown in the record kept for the same time in inches and hundredths was last month only 1.41, there being only one July with a lower record, that of 1881, when the rain fall was only 0.82.

In July, 1885, the rain fall was also scant, being only 1.43. The greatest amount of precipitation in that month for the past seventeen years was in 1872, when the rain fall was 17.12, which brought the memorable flood in White river.

For seventeen days during the past month the maximum temperature was 90 degrees and above—for three days it was above 109.

The Most Agreeable.

As well as the most effective method of dispelling Headaches, Colds and Fevers, or cleansing the system, is by taking a few doses of the pleasant California liquid fruit remedy, Syrup of Figs. 50c. and $1 bottles for sale by Thieme & Gross.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally: experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery,** and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is **Scrofula of the Lungs,** is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases** of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at **$1.00,** or Six Bottles for **$5.00.**

He held, further, that the board of examiners should judge for themselves as to whether or not these conditions had been complied with, in case of an application.

Suing an Insurance Company.

LAFAYETTE, Ind., Aug. 11.—A case involving some fine points of law has been docketed here in the superior court. Elizabeth Dowdican, a widow, asks the court to compel the Equitable Life Insurance company, of New York to pay her $1,000 on a policy alleged to have been held by her husband. Dowdican was solicited by the company's agent to insure. He pleaded inability to meet the first payment. The agent, it is claimed, entered into an agreement to carry him for thirty days—that is to give him that length of time in which to pay after it was due. This proposition Dowdican accepted, made his application, was examined, and the papers forwarded to the general office. There they were accepted and the policy mailed to the agent, but never delivered. In the meantime, before the expiration of the thirty days of grace granted by the agent, Dowdican was taken ill and died. Within the period named the widow sought the agent, tendered the amount of the premium, and demanded the policy. The money was refused and the policy withheld, the agent claiming that as no money had been paid and the policy was never delivered the widow had no valid claim on the company. The plaintiff asks that the company be compelled to produce the policy in court and that she be given judgment for $1,000 upon payment of the premium of that the premium be deducted from the $1,000 and judgment be given her for the remainder.

HORRIBLE!

A Broken Bridge Plunges an Excursion Train Into the Vermillion River, Carrying One Hundred Persons to Death.

CHICAGO, Aug. 11.—A dispatch from Chatsworth, Ill., says that a train left Bloomington last night for Niagara Falls, on the Illinois Central, the intention being to go by that road as far as Chatsworth, and from thence by way of the Toledo, Peoria and Western.

A change was made at Chatsworth, in Livingston county, and soon afterward, as the train neared Piper City, a small town in Ford county, the bridge crossing the Vermillion river, gave way, plunging the engine and several cars down the steep embankment into the stream.

The cars caught fire from the lamps and a fearful panic ensued.

On investigation it was found that nearly one hundred excursionists were killed or injured.

From a conductor it was learned there was a collision on the bridge, which caused the bridge to give way.

The conductor says the killed numbered between forty and fifty, and that the injured are more than twice that number.

The accident occurred some time between midnight and four this morning.

A relief train with physicians, was sent from Peoria this morning.

THE ILL-FATED TRAIN.

Information received at the Illinois Central office in this city is that the train consisted of two engines and sixteen coaches. The culvert had been burned away about two miles east of Chatsworth, presumably by the prairie fire, and about 1 o'clock, this morning the engines and coaches went over. The agent at Chatsworth reports that over 100 are killed and about a like number injured. He can give no further information.

Two Peoria gentlemen who had intended taking the ill-fated train, reached Chicago this morning, having, at the last moment selected another route east. They say the train was made up at Peoria. Twelve cars started from Peoria, including four sleepers. Attached to the train was the private car of the superintendent of the road, which was to be occupied by himself and son. The departure from Peoria was at 7 p. m. and the intention was to take another coach on, filled with excursionists, at Bloomington.

FROM THE SCENE OF HAVOC.

CHATSWORTH, Ill., Aug. 11.—The Niagara Falls excursion train, seventeen coaches and sleepers, crowded with passengers from Peoria, Ill., and points along the line was wrecked two and a half miles east of Chatsworth by running into a burning culvert.

The two engines were completely wrecked, together with ten coaches and a baggage car. Engineer McClintoch was instantly killed. Two firemen and another engineer escaped serious injury. Ten cars were piled on top of two engines, being telescoped and piled across the end on top of each other. It is miraculous how many escaped, as the coaches and engines do not occupy over two car lengths in space piled on top of each other. In one coach not a person escaped. Seventy of the dead have been taken out up to this time and 100 wounded are now in Chatsworth, in the town hall, the school house, the depot, etc.

THE KILLED AND INJURED IDENTIFIED.

At Piper City there are a large number of wounded—over fifty.

The dead are estimated at 100.

The cars caught fire, but were put out by trainmen and passengers. A heavy rain set in two hours later, before the wounded could be taken away.

The people are doing all they can for the wounded.

Among the dead is Mrs. Zimmerman and a babe belonging to Jos Neal, of Peoria.

Among the injured are J. E. Deckman.

Miss Pearl Adams.
Mrs. Lotty Welch.
Robt. Zimmerman.
Mrs. Mry McFray.
Mrs. Joseph Neal.
E. A. Parker.
Wallace Robinson.
Mrs. J. W. Grant, all of Peoria.

CHATSWORTH, Aug. 11.—Among the killed the following have been identified:

Mrs. P. Orear, Washington, Ill.
Mrs. May Lay, Forest.
Arthur McCarty, Forest.
Jas. Blair, Forest.
Ed. McClintoch, engineer.
Joe Hatton, baggagemaster, Peoria.
Jesse Meeks Girdis, Forest.
Mrs. Dr. Brucket, Forest.

LAST EDITION.

110 BODIES.

PEORIA, Aug 11.—A private dispatch from Superintendent Armstrong says that one hundred and ten bodies so far have been taken out of the wreck at Chatsworth.

FRIGHTFUL SCENES.

CHICAGO, Aug. 11.—Ten coaches had either gone through the bridge or were piled in a promiscuous shape crosswise and lengthwise of the track. The shrieks and groans of wounded and dying could be heard.

The bridge through which the cars passed was a small one. It had been on fire, which was the cause of its weakening, causing the frightful holocaust. So far over seventy bodies have been recovered. They were conveyed to the town hall, school house and on the depot platform.

TWO HUNDRED KILLED.

No one has been taken from under the cars, and not even a sound can be heard from them. It is feared all are dead, and the number killed is estimated at 200. The wounded so far number 160.

THE LOCAL GOSSIP.

The ill-fated train, so quickly wrecked at Chatsworth, was to pass through Fort Wayne over the Wabash road at 6 o'clock this evening. It was to leave the Big Four road at Lafayette and proceed thence to the Falls, but its career was cut short as were the dreams of the precious passengers. Arrangements were made to add to the train at all points on the Wabash road and from Fort Wayne a big party was expected to accompany the Illinois excursionists.

Dr. Geo. Stemen, who officiates as local Wabash surgeon in the absence of his father, received a telegram this morning saying that two hundred were killed and four hundred injured in the wreck near Peoria, and left this afternoon for the scene of the slaughter to administer to the wants of the suffers.

Mr. Joe Brackenridge, jr., who is connected with the Toledo, Peoria and Western road, in a clerical position, is in the city, and was busy answering queries.

The accident was the sole topic of conversation on the streets and from surrounding towns come orders for extra copies of THE SENTINEL, fifty being sent to New Haven alone.

ORANGE BLOSSOMS.

Country Lovers Parade the Streets in Bridal Robes.

This morning John Holzworth and Katie Kaft came to the city from Springfield township. Mr. Holzworth was fixed up in a sick suit of black cloth, while his girl bloomed and blushed in a neat brown silk dress. From her head clung a wreath of orange blossoms and it was very evident that cupid got in his work to a pleasing degree. They stepped out of their wagon on East Main street and ran the gauntlet of an assembled crowd of curious men, the bald-headed rascals predominating.

Small boys joined in the procession and the march to the clerk's office was in the nature of a triumph to the happy pair, who bestled against each other like people do before marriage.

Harry Metzger issued the license and Esquire Harding loomed up to make 'em one.

He led them behind the alcove in the clerk's office and pronounced the words that linked the people together in golden ties. The groom was a little aged and didn't mind it, but through the sun browned cheeks of his leader bride burst the blushes of modesty in genuine sprays. Upon one of these rosette spots Justice Harding planted the official seal and Dan Bonder had to be removed from the room.

There was a distinguished assemblage to witness the ceremony. Among them the society reporter noted:

C. F. Taylor, *Daily News*; Jos. Brackenridge, C. B. Wiley, county surveyor; M. N. Webber, councilman; Mr. Kehne, abstracter. John Furling, real estate broker; Lew P. Hartman, bank cashier; T. J. Rodabaugh, attorney; T. S. Heller, county recorder; W. J. Kerr, attorney; and others who escaped.

IN DISTRESS.

The Terrible Condition of the Icelander Colony Located at the Town of Sayerville, N. J.

NEW YORK, Aug. 11.—Intelligence reached New Brunswick, N. J., yesterday of the terrible situation of a colony of Icelanders, who arrived at Sayreville ten days ago. The party number forty, including wives and children, and while the men went to work in the brick yards at that place, the women lived in squalid quarters near the yards. All the members of the colony wore heavy clothing, and paid little or no attention to sanitary requirements.

Four days ago one of the men was seized with sickness resembling cholera. No physician was called and the man died in a few hours after taking to his bed. His fri nds in the colony were unable to communicate with any one about his condition, owing to their inability to speak English, and soon after death ensued the body was placed in a box and loaded on a beer wagon, taken to South Amboy and there interred. On Saturday a little child not over five years old died with the same malady.

The parents were distracted, but no one came to offer sympathy or relief. In their extremity the parents placed the body in a box, and pushing the front porch of the shanty aside buried it there. Yesterday it was reported that there were five more cases among the Icelanders, and the residents of that section are greatly alarmed as to their present safety.

Several doctors were requested last night to visit the colony and relieve the sufferers. The torrid heat of the past few weeks has weakened them so that they appear like ghosts of their former selves. Under no circumstances could they be prevailed on to forsake their heavy clothing, which they have worn from their cold climate to this country, and until they are crampoled to observe the rules of health and climatic change of clothing, their distress will not receive any improvement.

Removed for Cruelty.

PERU, Ind., Aug. 11.—Samuel Myers, who has held the position of superintendent of the county poor farm several years, has been notified that thirty days from date his services in the position will be no longer required. Myers' error lay in the too promiscuous use of the whip upon people in his charge, as was the case of Constable Taggart's half-witted sister, who was whipped until the flesh was raw and large black and blue welts showed themselves for this, which occurred some weeks ago.

A Priest Dies of Starvation.

NEW YORK, August 10.—Rev. J. M. Machale, a Catholic priest, who came from Ireland to the Brooklyn diocese last December, died on Monday from starvation. He suffered much from homesickness, and during the late hot spell he became demented and refused to eat. He was taken to the hospital last Saturday, having eaten nothing since the previous Sunday. He was then beyond the aid of physicians, and expired Monday morning. He was 46 years old, and a very eloquent speaker.

Found Floating in the Bay.

SANDUSKY, Ohio, Aug. 11.—The dead body of a man was found floating in the bay to-day, and from papers found in the pocket it is thought to be that of Lewis E. Stowe, clerk in the auditor's office of the T. A. A. and N. M. railway, Toledo. He hired a boat Sunday evening and failed to return. The boat was found beating against the cribbing. The authorities at Toledo have been notified, and an inquest will be held to determine whether the drowning was the result of accident or suicide.

A Stranger Killed.

Last evening at a point one mile west of Maples, in this county, where the double track of the Pittsburg, Fort Wayne road and the Grand Rapids road begins, a man was seen walking east on the Fort Wayne track. He stepped off to avoid a west bound train last got on to the Grand Rapids and Indiana railroad track just ahead of the east bound accommodation train which struck him from behind, killing him instantly. The mangled remains were brought to this city this morning and lies at Peltier's morgue for identity.

The dead man is supposed to have been a tramp and the poor fellow goes to a tramps grave.

DELL M. ASTRAY

Is Hurled from an Excursion Train This Morning and Receives Severe Injuries.

Dell M. Astry, who is employed as a machine hand in the manufactory of Rhinesmith & Simonson, was one of the excursionists who left this morning on the Grand Rapids with the Kerr Murray party for Rome City, but his day of anticipated pleasure was over almost before it had commenced, for he met with an accident soon after the train had pulled out of the depot. He was standing upon the steps of the platform of one of the cars, leaning out, and when the train reached the St. Mary's bridge, he was struck in the head by the iron structure and thrown from the train. He rolled down the high embankment into the river and when he was rescued by some of his companions it was found that he had received severe injuries about the head.

He was taken up and conveyed to the St. Joseph hospital in a hack, where Dr. Myers attended to his injuries. His head was severely cut in several places, the fall from the train and down the embankment bruised his body all over and injured him somewhat internally, but it is thought that time and medical treatment will bring him out all right in the end.

Since writing the above we learn that the lower jaw and the left thigh of the young man was broken and that his injuries will probably confine him to the hospital for two months.

RIPPE'S LOSS.

The Broadway Liverymen Hires to a Horse Thief.

Last evening Rippe & Son, the Broadway livery stable men, let a horse and buggy to a stranger. He did not return and the liverymen were alarmed.

Early this morning the horse turned up with the fore harness partially hanging to him.

The officers were notified and at once went in search of a clue to the thief and missing buggy.

The rascal is believed to be the same fellow who stole the horse and buggy at Huntington and drove to this city. Yesterday the Huntington outfit was recovered, and learning of this the thief sought Rippe's rig as a medium of flight to some neighboring railway station.

LATER.—The officers have since learned that Rippe's horse was driven out of the city by two men, who had another horse attached to their buggy and this animal, it is supposed, relieved Mr. Rippe's horse some time last night.

AN OLD CASE.

Francis Scott Robinson Wanted in Whitley County.

Marshal Frank Supple, of Columbia City, was here last evening to arrest Francis Scott Robinson, alias Householder, who is wanted in Whitley county to assume parental responsibility. Some three years ago Robinson, it is alleged, seduced a pretty girl of our neighboring village, and in due time a sweet faced babe made its advent.

Robinson is now asked to right the wrong and he ought to do it.

Robinson's hiding place, in Bloomingdale was surrounded last night by Marshal Sutton and Sheriff Viberg, but the fugitive was not found.

A Thrilling Story.

TOLEDO, Aug. 11—A local paper prints a letter purporting to come from Tampico, Mexico, which contains strong internal evidences of Joe Malhaiton's authorship. It describes a duel between Senor Victoria and Senor Pachoso, the conditions of which were that they should lock themselves in a dark room with a hundred tarantulas, neither to leave until all the tarantulas had been killed. There were no seconds, and when the room was broken open both the men "were found on the floor dead, surrounded by the dead and living horrible spiders." The affair grew out of a quarrel at a ball, when the two seniors were heated with wine."

Paymaster Rash.

WASHINGTON, Aug. 11. Paymaster Daniel N. Rash, of the United States army, who was robbed of $7,300 in Wyoming last March by a cowboy, has been suspended from duty. The investigation of the affair made by a court of inquiry is said to have revealed carelessness and negligence on the part of Major Rash.

A Card from Thomas Ahern.

TO THE EDITOR OF THE SENTINEL.

The *Journal* of this morning does me an injustice when it states that I threw up the contract for paving Calhoun street, because the council would not allow me to put in blocks the size of a tub. This is not true. The council changed the specifications after the contract had been awarded to me and then instructed the city clerk to notify me and ascertain if I would abide by the changes. I notified the council that I would not. I am ready now to perform the contract that I had on, but I cannot do the work for the same price with the changes.

Hilgus & Dorbeimer had a block of Columbia street to pave and they threw up their contract for the same reason I did, yet the *Journal* is not impartial enough to state the fact or facts as they really exist.

THOMAS W. AHERN.

The Democrat Possibilities.

INDIANAPOLIS, Aug. 11.—A democrat who knows says that both Congressman Matson and W. R. Myers have already begun an active campaign for the democratic nomination for governor next year. For the state offices he thinks the 1886 ticket will probably be re-nominated.

The light rain this morning did little or no good to vegetation. The corn will not be half a crop, and everywhere farmers are feeding it to their stock. Potatoes are beyond redemption, and heavy rains now would rot them. The meadows are bare, and the earth opens into huge crevices, so great is the drought. This dry season is without a parallel.

THE PRESIDENT!

He Selects His Route, But Fort Wayne is not Included on the List—

He Will Leave in September.

WASHINGTON, Aug. 11.—It is about definitely settled that the president will leave Washington the last week in September and go directly to St. Louis, probably by way of Indianapolis. He will spend two days at St. Louis and go from there to Chicago, Milwaukee Madison, St. Paul, Minneapolis, Omaha Kansas City, Memphis, Nashville and Atlanta reaching the latter place in time to meet his engagements for October, 1888. He will go by the ordinary lines of travel, between the places named, and as his fixed appointments will preclude any divergence from the route to visit other cities all, invitations outside of it have to be declined.

The Weather.

WASHINGTON, August 11.—Indiana, local rains, followed by fair weather in the eastern portion, fair weather in the western, slight changes in temperature.

ADRIAN, Mich., Aug. 11.—No rains have fallen since the early part of June, and the drought is becoming distressing. Not only have crops been affected seriously, but farmers are now appreensive of fires. Last evening a man driving by Charles Culbertson's, near Tecumseh, threw a lighted cigar by the roadside. The grass ignited, and all of Culbertson's farm buildings and stacks, with a quantity of fence, were burned. Lakes in the western part of the country, which never fluctuate but a few inches, are now lowered two feet by continual evaporation.

CHICAGO, Ills., Aug. 11.—A light rain fell here for several hours last night, and it appeared to be general throughout the northern part of the state. The indications are it will be repeated to-day.

The Findlay Gas Boom.

MARION, Ind., Aug. 11.—Canton Marion, of this place, is arranging to bring suit against the board of trade and the citizens' committee of Findlay, O., for $750. In June Findlay gave a grand natural gas jubilee for the purpose of booming and advertising the town. There were processions, illuminations, speeches and prize drills. Seven hundred and fifty dollars were offered for the best drilled canton and $250 for the second best. The Marion canton captured the first prize—at least it was awarded them. The cash was not forthcoming on the spot, but as it was guaranteed by the board of trade the canton came home satisfied with the promise that it would be sent by the first of the next week. It did not come and demands for the money were met with other promises. Of late all communications of the canton have been treated with silence and the conviction forces itself that Findlay had a big time and got an immense amount of advertising at other people's expense. As soon as the canton can find out who, if anybody, is responsible, they will enter suit for the amount.

Mr. and Mrs. Julius Pottlitzer, of 106 East Berry street, are entertaining their cousin, Miss Annie Jones, of St. Louis, Mo.

Mr. J. R. Bittinger and Dr. Poyner got into a dispute in front of Esquire Ryan's office this afternoon. The doctor contracted Mr. Bittinger very flatly and the last named gentleman planted his fist in the doctor's face. Friends then interfered.

FOREIGN NEWS.

VIENNA, Aug. 11.—Prince Ferdinand, of Saxe-Coburg-Gotha, who is on his way to Sofia to assume the Bulgarian throne, sent a note to the powers yesterday, stating that his reason for starting for Bulgaria without their consent was that he was convinced that their opposition to his acceptance of the Bulgarian throne was not due to any objection to him personally, but was directed solely to the manner of his election.

A Boon

To mankind, said a member of the State Medical Society of Ga., at one of its meetings, "and the prescription ought to be given to the medical fraternity for the benefit of the Profession, for no such combination exists in the Pharmacopœia as that of Simmons Liver Regulator." The late Thos. H. Powers, of Philadelphia, America's greatest chemist, asserted "it was like the discovery of Dover, in his celebrated Dover's Powder, it could not be improved and it was wonderfully strange that the combination had never been made in an official form."

L. M. HIXSON, M. D., Washington, Ark., says: "No other remedy within my knowledge ran fill the place. I have been practicing medicine for twenty years, and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action and at the same time aid (instead of weakening) the digestive powers."

Symptoms such as bitter or bad taste in the mouth; pain in the back, often mistaken for Rheumatism; sour stomach; loss of appetite; bowels alternately costive and lax; headache; loss of memory, with a painful sensation of having failed to do something which ought to have been done; debility; low spirits; a thick yellow appearance of the skin and eyes; a dry cough often mistaken for Consumption, indicate Liver disease, and if not regulated in time great suffering, wretchedness and death will often ensue.

Price $1. Sold by all Druggists. Prepared by J. H. ZEILIN & Co., Philadelphia, Pa.

IN THE BUSY WORLD.

Personal Points and Pithy Paragraphs Picked up Around the Shops and Railroads of the City.

Ernest Miller, a boiler maker in the Pittsburg, is on the sick list.

Arthur Mills, the finisher at Olds works, is still confined to his house with sickness.

The Pittsburg shop will place a new large stationary boiler in their car department.

A seedy looking tramp was bagging eatables in the houses near the railroad this morning.

This was a nice day for the men engaged in work at the manufacturing establishments of the city.

Gus Fremuth, a machinist in the Nose works accompanied the excursion to Rome City this morning.

The ticket agents on the railroads report the sale of tickets to summer resorts as larger than former years.

Some of the boys who received their rey yesterday are contemplating a vacation and a visit abroad for a few days.

H. C. Evernole has been appointed official examiner of the watches carried by the employes on the Wabash Western.

James Fry is filling the position of Enoch Cox as store keeper in the Pittsburg during the latters absence on his vacation.

William Smith, the genial foreman at the Olds works, is laying his plans for a few days vacation at Detroit and among the lakes.

A fire among a pile of wood lying alongside the Wabash track near Roanoke yesterday delayed the regular passenger trains for several hours.

Reason will celebrate, on October 30th, the fiftieth anniversary of the opening of her first railroad. That country now has 17,000 miles of railroad

The city of Grand Rapids has been circled with a belt railroad, which connects all the railroads entering there and a number of the largest manufacturing concerns as well.

F. J. Hess, the machinist in the Pittsburg shop, had a well dug on his premises recently, and the clay taken therefrom has already developed curative properties. A. Hamilton says it is indispensible in cases of rheumatism and he has suggested to Mr. Hess the propriety of selling some at 25 cents per pound. He will visit the point of interest to-day with a view of securing an interest therein.

The excursion of the employes of the Pittsburg shops to Warsaw on the 20th of the month is now a fixed fact, and notices to that effect were received at the offices of each of the foremen this morning. All of the employes of the shops will be furnished with free tickets by the company, for themselves and their families, but the outsiders who accompany them will be charged sixty cents for the round trip. The Pittsburg boys will undoubtedly carry a big excursion to Warsaw, as the employes alone number over 1,000 men, and with their families will approach near to 4,000 people. Warsaw can look out for a big crowd on the 20th and prepare accordingly.

Mr. James Doyle, of the Olds works, one of the popular and well known young men in the city and a general favorite with his fellow workmen, sends us the following note which explains itself. Mr. Editor.—Dear sir, I see in your issue of Tuesday evening that my name is mentioned in connection with a boxing match that it is said some parties are arranging or propose to have. So far as my taking a part in the match is concerned I wish to state that there is no truth in it as I have shown no desire to box anybody since the accident which happened to me about a year ago, and when I do I will talk for myself. Yours Truly.—James Doyle.—We gladly publish the card of Mr. Doyle, and will say in this connection that the boxing glove contests in which the boys of the shops sometimes indulge are but innocent playful affairs and but one of the ways in which they are wont to pass the noon hours. They are carried on in good humor and end in good humor.

Summer Resort for Episcopalian Ministers.

Bishop Knickerbacker, of the Episcopal diocese of Indiana, has recently purchased a tract of thirty acres of hard wood timber land on a beautiful chain of lakes in the vicinity of Linas, with a view of erecting in time a summer resort for the clergy and churchmen who may desire to avail themselves of it. An association in due time will be formed, the tract laid out in lots, and privileges disposed of to churchmen for cottages. The plan includes a chapel, clergy house and cottages, boat houses and boats, bath house, boarding house, park, etc. The tract is situate on Fern lakes, high and dry. It connects by an railed with Pigeon river and Pigeon lake. The location is fine, and the situation considered many advantages of a healthful quiet summer resort.

About the Weather.

From the record kept at the Indianapolis signal service office, it appears that July, 1887, was the warmest July in seventeen years, the mean temperature, 80.6, exceeding the same month in 1879, which comes next with a heat record of 79.6, and 1881 with 79.4. The rain-fall, as shown in the record kept for the same time in inches and hundredths was last month only 1.43, there being only one July with a lower record, that of 1881, when the rain fall was only 0.62.

In July, 1885, the rain fall was also scant, being only 1.43. The greatest amount of precipitation in that month for the past seventeen years was in 1872, when the rain fall was 17.12, which brought the memorable flood in White river.

For seventeen days during the past month the maximum temperature was 90 degrees and above—for three days it was above 100.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally, experiencing a sense of fullness or bearing down, or pain, weight or backache, with frequent desire to pass water, nervous sensations, and "feeling generally tired out?" If so, you are laboring under the combined influence of torpid liver, kidneys, and impure blood. Nothing can be plainer. Nature, in pleading for relief, demands that you help her, and that help should be promptly rendered, before the inevitable result—organic disease—sets in. Delay is dangerous. No matter what stage it has reached, Dr. Pierce's Golden Medical Discovery will relieve it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and consumption, the Scrofula of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and sweep off their victim as a fatality.

If you have all, or any considerable number of these symptoms, you are suffering from the most common of American maladies—Biliousness, or Torpid Liver, complicated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater its number and diversity of symptoms. No matter what stage it has reached, Dr. Pierce's Golden Medical Discovery will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and consumption, the Scrofula of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and sweep off their victim as a fatality.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally effective in purifying the blood in the Kidneys, and other excretory organs, cleansing, strengthening, and healing them when diseased or inflamed. Being a perfect blood purifier, an unrivaled blood maker, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts the wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and Liver Complaint.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt Rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by the powerful, purifying, and invigorating qualities of this "Golden Medical Discovery," when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it by some high-sounding name, but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, alterative, and nutritive properties, is unequaled, as a remedy for all Chronic Diseases of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an effectual remedy.

Sold by Druggists, at $1.00, or Six Bottles for $5.00.
